B.A	1. Studying history enables students to develop better understanding of the world in which we live. Building knowledge and understanding of historical events and

History	<p>trends, especially over the past century,</p> <ol style="list-style-type: none"> 2. Enables students to develop a much greater appreciation for current events today. 3. History is one of the most respected and most valuable academic subjects your students will learn. 4. This guide takes a deep dive into the importance of learning history at college, plus a few tips for studying it effectively.
B.A Economics	<ol style="list-style-type: none"> 1 Students familiarize with the basics of Economics. 2. Understand basic concepts of economy. 3. To understand and comprehend economic issues. 4. To enhance student understanding about resources in India. 5.To understand the various economic aspects affecting the Behavior of individuals, firms and markets. 6.To understand the fundamentals development concepts.
B.A Political Science	<p>Student will able to understand our socio-economic, political to intricate of society.</p> <p>They can participate in political life with theoretical knowledge, and they can understand economics structure of the domestic to international .They enlighten the historical prospect of the nation and world .Totally The study of the social science more crucial for smooth and successful social life.</p> <p>The student of political will able to understand practical and constitutional political process the complexity political process will easily understand able for student.</p> <p>The political science knowledge with constitutional background is very useful in there citizenship life because hear they will cross national and international administrative and and political process .</p>
B.A (Sociology)	<p>PROGRAMME SPECIFIC OUTCOMES:</p> <p>Sociology seeks to understand all aspects of human social behavior, including the behavior of individuals as well as the social dynamics of small groups, large organizations, communities, institutions, and entire societies. Sociologists are typically motivated both by the desire to better understand the principles of social life and by the conviction that understanding these principles may aid in the formulation of enlightened and effective social policy. Sociology provides an intellectual background for students considering careers in the professions or business. An Honours Graduate student of Sociology should able to develop:</p> <p>Critical Thinking: The programme seeks to develop in students the sociological knowledge and skills that will enable them to think critically and imaginatively about society and social issues.</p>

	<ul style="list-style-type: none"> • Sociological Understanding: The ability to demonstrate sociological understandings of phenomena, for example, how individual biographies are shaped by social structures, social institutions, cultural practices, and multiple axes of difference and inequality. • Written and Oral Communication: The ability to formulate effective and convincing written and oral arguments. • Better understanding of real life situation: The ability to apply sociological concepts and theories to the real world and ultimately their everyday lives. • Analytical thinking: Field survey and preparation of dissertation paper is an inseparable part of Sociology Hons Programme. Students have to collect primary data for census as well as his/her research topic and analyse the data to draw conclusions. So, qualitative and quantitative analytical skills are enhanced. • Observation power: a sensible observation power is necessary to identify the research problems in field study. So a perception about human society slowly grows up. • Communication skills and Social interaction power: Students of Sociology stream have to work beyond the class room boundary at the time of field study activities. As a result good communication skill develops while interacting with local people. • Ethical and Social Responsibility: Students have to learn about institutions, folkways, mores, culture, social control ,social inequality, population composition, population policy, society and culture of India. All these help to instill among the students of Sociology a sense of ethical and social responsibility. • Professional and Career Opportunities: Students will have the opportunity to join professional careers in Sociology and allied fields. Sociology provides an intellectual background for students considering careers in business, social services, public policy, government service, nongovernmental organizations, foundations, or academia. This programme lays foundation for further study in Sociology, Social work, Rural Development, Social Welfare and in other allied subjects
B.A Journalism	<ol style="list-style-type: none"> 1. Editor, Cartoonist, Photo Journalist, Proof Reader, Future Writer 2. Leader Writer, Correspondent/ Special Reporter, Presenter, Researchers, Reporter, 3. BroadCast Reporter, Tv Reporter, Columist, Freelance Writer, 4. Journalism Lecturer, News Reader, Copy Editor, Sub Editor, Residential Editor, Video Editor,

	<p>5. Cinema Director, Graphic Designer, Actor, Script Writer,</p> <p>6. Flock Media Actor, Public Relation Officer, Media Consultant, Researcher,etc...</p>
<p>B.Sc (Computer Science)</p>	<p>After successful completion of three year degree program in Computer Science a student should be able to :</p> <ol style="list-style-type: none"> 1. Apply fundamental principles and methods of Computer Science to a wide range of applications. 2. Improve their computer literacy, their basic understanding of operating systems and a working knowledge of software commonly used in academic and professional environments. 3. Develop criteria to organize and present different type of works in academic and professional environments. 4. Learn to organize information efficiently in the forms of outlines, charts, etc. by using appropriate software. 5. Develop the skills to present ideas effectively and efficiently. 6. Design and deliver an effective presentation and develop the various IT skills related electronic databases. 7. To develop problem solving abilities using a computer and to build the necessary skill set and analytical abilities for developing computer based solutions for real life problems. 6. Prepare for continued professional development.

<p>B.Sc. Chemistry</p>	<ol style="list-style-type: none"> 1. Gain the knowledge of Chemistry through theory and practical's. 2.. To explain nomenclature, stereochemistry, structures, reactivity, and mechanism of the chemical reactions. 3. Identify chemical formulae and solve numerical problems. 4. Use modern chemical tools, Models, Chem-draw, Charts and Equipment's. 5. Know structure-activity relationship. 6. Understand good laboratory practices and safety. 7. Develop research oriented skills. 8. make aware and handle the sophisticated instruments/equipment's.
<p>B.Sc. Mathematics</p>	<ol style="list-style-type: none"> 1. Provide students/learners sufficient knowledge and skills enabling them to undertake further studies in mathematics and its allied areas on multiple disciplines concerned with mathematics. • Encourage the students to develop a range of generic skills helpful in employment, internships and social activities. The skills and knowledge gained has intrinsic beauty, which also leads to proficiency in analytical reasoning. 2. Bachelor's degree in mathematics is the culmination of in-depth knowledge of algebra, calculus, geometry, differential equations and several other branches of mathematics. This also leads to study of related areas like computer science, Financial Mathematics, statistics and many more. Thus, this programme helps learners in building a solid foundation for higher studies in mathematics. 3. This can be utilised in modelling and solving real life problems. Students undergoing this programme learn to logically question assertions, to recognise patterns and to distinguish between essential and irrelevant aspects of problems.
<p>Botany</p>	<ol style="list-style-type: none"> 1. Studnets can go to Life science fields. 2. Students Can go to resesrch fields. 3. Wide job opportunites in Forest, Agriculture, Horticulture and Medical science fields.

<p>B.Sc. Zoology</p>	<ol style="list-style-type: none"> 1. Students can get Job opportunities by their B.Sc. -Zoology knowledge in various fields like Forest department, Sericulture, Apicultures, Dairy units, Poultry farms. Etc. 2. Can eligible to write Govt. exams like Indian Forest Service (IFS), Forest Department exams like ACF, RFO, DRFO, and In Pollution Control Boards. And private exams like Teaching field, Tutors. etc 3. Can also get Economical stable by Poultry farming, Aquaculture (Fish Culture), Sericulture (Silk worm Culture), Dairy (Production of milk and their products), Apiculture (Honey bee culture) techniques. 4. Eligible to do higher qualifications like M.Sc. in Zoology, Microbiology, Biotechnology, Industrial Fisheries, Marin Biology, Molecular Biology, Genetics, Human Genetics. Continue their study in Medical Sciences like MBBS, BAMS, etc and in Teaching courses like Bachelor of Education (B.Ed.) and Diploma in Education (D.Ed.) and etc. 5. Completed Students can also do other Govt. projects like Peoples Biodiversity Register (PBR) Conducted by Social Forest Division.
<p>B.Sc. Physics</p>	<ul style="list-style-type: none"> • Demonstrate a rigorous understanding of the core theories & principles of physics, which includes mechanics, electromagnetism, thermodynamics, & quantum mechanics. • Learn the Concepts as Quantum Mechanics, Relativity, introduced at degree level in order to understand nature at atomic levels. • Provide knowledge about material properties and its application for developing technology to ease the problems related to the society. • Understand the set of physical laws, describing the motion of bodies, under the influence of system of forces. • Understand the relationship between particles & atom, as well as their creation & decay. Relate the structure of atoms & subatomic particles Understand physical properties of molecule the chemical bonds between atom as well as molecular dynamics. • Analyze the applications of mathematics to the problems in physics & develop suitable mathematical method for such application & for formulation of physical theories. • Learn the structure of solid materials & their different physical properties along with metallurgy, cryogenics, electronics, & material science. • Understand the fundamental theory of nature at small scale & levels of atom & sub-atomic particles.

BBA	<p>After successful completion of three-year degree program in Business Administration student should be able to:</p> <ol style="list-style-type: none"> 1. To provide adequate basic understanding about Management Education among the students and to develop language abilities of students to inculcate writing skills and Business correspondence. 2. To evaluate different business problems using analytical and creative, and integrative abilities and to solve business problems in an ethical manner. 3. To understand finance and other core business content and new venture development. 4. To develop and implement functional and general management skills to make strategic decision in real – era. 5. To build and Demonstrate Leadership, Teamwork, Social skills and Communicate effectively in different contexts. 6. To facilitate the students to go for professional courses and to develop ethical reasoning, professional behavior and entrepreneurial skills. <p>To prepare professional quality business documents and deliver a professional quality business presentation and to develop a global perspective towards various legal issues</p>
B.Com	<ol style="list-style-type: none"> 1.Students got acquainted with basic professional skills 2.well versed with basic accounts as a foundation for CA & Tax practitioners 3.Acquired entrepreneurial skills & competitive skills to sustain in the multinational business environment

<p>PG M.A kannada</p>	<ol style="list-style-type: none"> 1.ಕನ್ನಡ ಸಾಹಿತ್ಯ ಮತ್ತು ಸಂಸ್ಕೃತಿಯನ್ನು ಅರಿಯುತ್ತಾರೆ. 2. ಕನ್ನಡ ಭಾಷೆಯ ಪ್ರಾಚೀನತೆಯನ್ನು ತಿಳಿಯುತ್ತಾರೆ. 3.ಕನ್ನಡನಾಡಿನ ಜನಜೀವನ ಪದ್ಧತಿಯನ್ನು ಅರಿಯುತ್ತಾರೆ. 4. ಕನ್ನಡದ ಅಸ್ತಿತ್ವವನ್ನು ಕಾಪುಡಲು ಎಚ್ಚರ ವಹಿಸುತ್ತಾರೆ. 5.ಸಂಶೋಧನೆಯ ಜವಾಬ್ದಾರಿಯನ್ನು ನಿರ್ವಹಿಸುತ್ತಾರೆ.
<p>PG M.A Economics</p>	<ol style="list-style-type: none"> 1.Students understand and analyse the behaviour of individuals,firms and markets. 2.To understand the theoretical models that explain the behaviour and determination of equilibrium income, output and employment. 3. To train students in application of Statistical techniques to economic problems. 4. To help them examine the impact of different programmes and policies on labour welfare in the context of globalization and liberalization. 5. To improve student awareness on burning economic issues 6. To enable the students to study the various growth models. 7. To understand the steps in analysis and report writing.
<p>PG M.A Political Science</p>	<ol style="list-style-type: none"> 1.understanding the inter relationship between policy decisions and its effects on society. This is achieved through a comprehensive teaching of the practice of public administration in India. 2.Critical thinking: the ability to analyse and predict socio political phenomena based on the study of existing socio economic determinants and past experiences.
