Office of the Principal

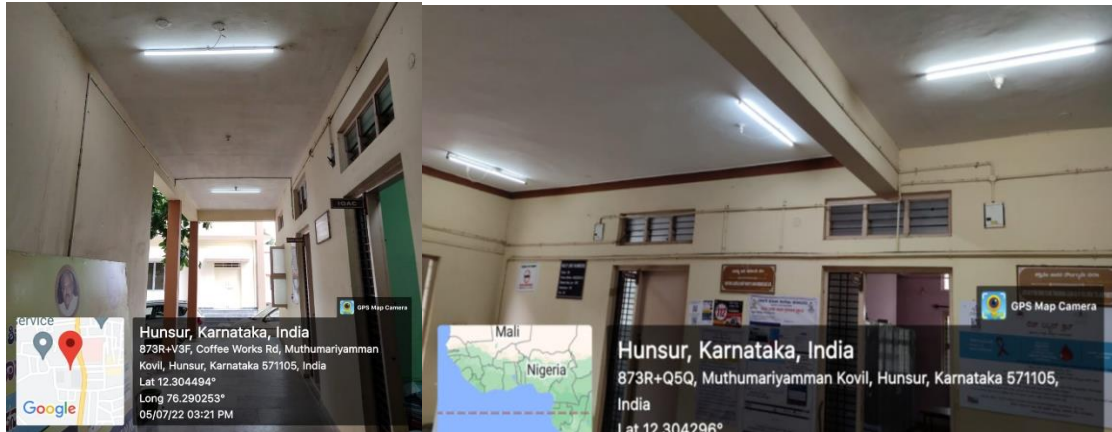

Office Landline No: 08222-251251

Every human activity in some or the other way contributes to pollution. Electricity has made our lives easy and on a daily basis we consume electricity which in turn causes destruction to mother Earth. Hence our institution by using LED (Low Emitting Diode) does its bit in saving the mother earth and creates a Greener World.

### **LED Bulbs & Power efficient equipment**

Facilities for Energy Conservation at college

Across the building LED lights have been installed for the purpose of energy

### **Alternative Source of Energy and Energy Conservation Measures**

Solar Power Plant Installed in the Administrative Block Terrace: We have installed two plants of solar power battery of 20 KVA capacities which provides power to the main building with computers.
