Activities

UGC Sponsored Minor Research Project (Year 2008)

Women as Executives- Barriers and Breakthrough – an empirical study

The Study aimed at addressing major issues like-*Do women executives come into their own in the work place? Has the workplace truly empowered women executives to enable themselves to rise to top positions based on merit and performance? Is there still a glass ceiling over development and progress of women executives? Do women executives become role model for other women in the society? Are there any ways and means to overcome the barriers to get a breakthrough?*
