### 2.1 Clarification regarding year wise list of students approved by the affiliating University.

This is to clarify that approval of the seats by the affiliating University is given to the first year Degree students only which continues until the completion of their degree. If any student is admitted fresh for 2<sup>nd</sup> or 3<sup>rd</sup> year of Degree (lateral entry, transfer from other colleges as the case may be) only such students seats will be approved by the University.
