INSTITUTIONAL DISTINCTIVENESS

Dr. P Dayananda Pai – P Satisha Pai Government First Grade College being the Lead College of Dakshina Kannada District, it has a number of institutional distinctiveness to meet its vision, mission and objectives. One among such practices is explained below:

Mentoring System:

Our college has an effective mentoring system where a small group of students are given to the care of individual faculty members. The concerned faculty member takes care of every aspect of the student who comes under her/his care. They collect the personal data of the students in a prescribed format supplied by the college and then analyse the data. From the analysis, they can identify students with different problems such as financial, psychological, academic etc. The faculty members try to meet each student and speak to them to get further information. Students with severe financial problems shall be referred to the Principal where Principal along with the faculty members mobilise funds and help out the student to solve the financial crisis may it be medical or other problem.

The college has the practice of encouraging the Advanced Learners through financial incentives where Student who have scored above 90% and 80% were recognised and given cash award of Rs.2,000 and Rs.1,000 respectively, which has motivated those students to excel further and also inspired other students to score good marks in the forthcoming examinations. Hence, they also identify advanced learners and recommend for the cash awards. Each department arranges for remedial coaching. So the the mentors also identify slow learners based on their examination performance and refer them to the concerned subject teachers for further action.

At the same time, the college has a professional Counsellor to address the students issues. So, students with acute psychological issues will be referred to the Counsellor for counselling.

Thus, college provides maximum care to the students to meet its vision, mission and objectives.
