**Aims and Objectives**

To orient the students about the mushroom cultivation

### **Speaker's deliberations:**

Sr.Charles explained the students about the importance of self-employment considering mushroom cultivation as an option for self-employment. She demonstrated the steps to be followed while cultivating mushroom along with the raw materials required in cultivating mushroom.

### **Participants:**

78 students of various streams of the college participated in the workshop.

### **Outcome:**

The session was much informative and demonstration about the mushroom cultivation made the more interesting and understanding.

### **Conclusion:**

Mushroom cultivation is one of the ways of self-employment that one can have in rural areas with minimum resources and time, orientation with demonstration served the purpose.
