Part B

CRITERION I – CURRICULAR ASPECTS

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

Indira Gandhi Government First Grade Women's College, Sagar is an affiliated institution of Kuvempu University and not an autonomous institution. The University frames the curriculum of all the subjects to be delivered in the affiliated institutions. Accordingly, this institution has created and maintained an inspiring atmosphere in the campus to support the effective delivery of all components of the curriculum like teaching, learning, assessment and resource in its core function of teaching at the class room level. At the macro level, the curriculum of teaching here aims to equip students with firstly, deeper knowledge in their core subjects, necessary skills and moral values in their personal life and meaningful participation in the society as responsible citizens of the country; secondly, pursuance of higher education and thirdly; transition from students to valuable human resources. At the micro level, the mission of the curriculum and its teaching is set to develop in each student, the critical and creative thinking, evaluative ability, communicative skills, team spirit, inventive and innovative attitude and aptitude in all programs. In order to achieve the realization of the above said aims and mission of effective curriculum delivery, all the

teachers in general are sent for trainings like orientation programs, refresher courses, short term courses, seminars, conferences and workshops from time to time. The teachers focus on a par with the learners, the content and the society. With their expertise, the trained teachers employ effective teaching methods to accommodate diverse learners and multiple intelligences, understand the curriculum thoroughly at the conceptual level, and prepare a teaching plan. Consequently, they collect and use the appropriate and updated books, digital resources, charts and posters, audio-visual aids, multimedia and other ICT instruments in their class room teaching. The teachers, firstly, supervise the learning progress of the students, secondly, they bridge the gaps and divides developed in learning of the students in the class due to their socio-cultural and economic issues - rural and urban, poor and rich, gender discriminations, social stigmas and thirdly, resolve the problems of poor learning, absenteeism, by providing them with counseling. In the monitoring and evaluative process of the curriculum, written tests twice a semester, assignments, projects, seminars and viva voce are being conducted for all the students towards their internal assessment. To sum up, as for the effective curriculum delivery, the teachers are the true critical internal role players implementing, assessing and imparting quality knowledge to the students. The curriculum categorically identifies the outcomes of the learning, standards and competences of the students and helps build a solid foundation to support learning in their current and higher level of studies. The curriculum designed by the university and taught theoretically in this institution, provides a major space for the cross-cutting issues relevant to Gender, Environment Sustainability, Human Values, Professional Ethics and Development of Creative and Divergent Competences in all disciplines. In general, these issues prove to be very effective in shaping the positive attitudes and aptitudes of the student and help them form their critical and creative sensibility.

1.4.1 – Whether structured feedback received from all the stakeholders.

Students	Yes
Teachers	Yes
Employers	No
Alumni	Yes
Parents	Yes

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution?
(maximum 500 words)

Feedback Obtained
Students' feedback > B.A students studying humanities find their syllabus suitable to make them the best citizens of the country. Aims and objectives of the syllabi are well defined and clear. Students are happy with the syllabi for the simple reason it teaches them to be prudent. There has been a good balance between theory and application. It evokes interest in the subject. However

employability is not up to the mark in case of B.A subjects. As far as B.Sc. students are concerned, studying pure science is encouraged in the modern education system. Our students have chosen pure science in place of technical subjects. Hence it is need based. There is a balance between theory and application. These students have opportunities for higher education. Employability is also there. Students have appreciated the transparency of the evaluation system. Scholarships are given by the college too. Field visits, study tours are conducted as an extensive activity in support of academics In case of B. Com students, accounting process is getting a lot of opportunities in market. Syllabus teaches them to study sales tax, income tax, GST etc. Hence the syllabus is need based. Employability is a matter of paramount importance in framing the syllabus of commerce. Accordingly, students have expressed their satisfaction in teaching and learning processes. Higher education opportunities are also there. Feedback from parents > Parents have expressed their satisfaction regarding different programs conducted for students during their degree course. However they expect better infrastructure in terms of references and study materials. They also feel that syllabi should be restructured from time to time to equip the students to face the challenges of job market. Most of the parents have expressed their satisfaction about the quality of teaching in the institution. Many parents have noticed the positive effect of the activities of the college that their daughter in getting jobs and placements. They have also noticed transformation in the personalities of their ward. Teachers' feedback > Board of studies of the university prescribes the syllabus. Many teachers have considered it to be excellent. Many others feel that drastic changes are to be brought out in the syllabi of the university. Some feel that syllabus requires to be defined and clear for both to the teachers and students. Teachers feel that it should be student centric and knowledge based. Many feel that in the examination oriented education system, the teachers are constrained to teach students only from examination point of view. Curriculum has to be updated in terms of demand of the job market. Alumni feedback > On the basis of our informal discussion with the alumni, we draw this information. Alumni suggest further extension of placement activities. They suggest programs like spoken English, computer efficiency, personality development etc. However, all these are going on in our college. They suggest further strengthening of these extension activities to equip our students to compete with the students of metropolitan cities.

2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

Yes. Mentor and mentee ratio is 1:82. Principal appoints mentors to ensure the proper implementation of teaching and learning process. Mentors give individual attention to the students. They classify both meritorious and mediocre students. Slow learners are also given maximum attention. The mentors maintain attendance records of the students of the allotted class. They also monitor discipline and maintain merit list. They identify special skill among them and encourage accordingly. Ours is students centric system, individual attention is of paramount importance. Students are well connected in social media and made groups class wise in whatsapp. An attempt is made to give a holistic approach to the education system by improving their Intelligent Quotient, Emotional Quotient and Spiritual Quotient through NSS, NCC, Sports, Youth Red Cross, Scouts and Guides. We also use Assembly sessions to build up leadership Qualities. Students face thousands of people and come out of stage fear. It is a confidence building exercise has been very fruitful.

2.5.2 – Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

This is an affiliated college under Kuvempu University. The university fixes marks for internal assessment. Two internal tests are conducted in a semester. Improvement test is also conducted. Total transparency is maintained. Valued answer scripts are shown to the students in the open class. Queries, if any from the students, would be consolidated and settled in the bilateral discussions with the students. Suitable suggestions for improvement would be provided to the students as and when needed depending upon the case. At the institutional level the students are trained to face the semester examinations. The semester examinations are conducted according to the university norms biannually. Question papers and answer papers are barcoded. Anonymity is strictly maintained. Foolproof system is there to ovoid manipulation. Confidentiality is maintained. Student can seek photocopy of the answer script and may apply for revaluation or challenged valuation. Valuation is manually conducted and the data is instantly stored to announce the results immediately. Students get instant justice by invoking the provisions of sakala with regard to the University examinations. For example. for the correction of marks card, for the removal of withheld entry from the marks card, for the removal of non completion of lower examinations (NCL) from the marks card, to get Migration Certificate, to get Provisional Marks Card, Provisional Certificatea and Convocation Certificate. The vision of the college is to make the college a centre of excellence by imparting valuebased quality education to the students to make them more competent to meet the global challenges and to become a centre of studies relevant to the contemporary world. The mission statement is To utilize human resources to the extent of making students responsible citizens of the nation with entrenched social commitment through creative teaching, learning and research activities. To uphold the vision and mission of the institution, the faculty are entrusted with responsibilities other than delivering the curriculum. The responsibility has been decentralised and participative management system is well in place to ease the functioning and a sustainable system has been established. The faculty of the institution are members of different committees. The committees have a welldefined structure and specific roles to play for the ease of administration and welfare of the students. Another decentralised practise of the institution allows the teachers to monitor the attendance of every student individually. With a strength of over 2500 students, it is a herculean task for the attendance to be maintained centrally. Every class has been assigned a tutor ward and the respective teacher who also play the role of a mentor and guide monitors the attendance of every student. The attendance of the students is read out in class on the first day of every month and a list with subject wise attendance is displayed on the notice board. In case a necessity arises, the respective teacher will also hold a parentteacher meeting. The students are sent to the counselling cell for guidance to aid mental health. As a part of decentralisation and participative management, every teacher offers 4 hours of administrative help in the college office every week.

7.2.1 – Describe at least two institutional best practices

Practice 1: Junk Food Free Campus (Health and Hygiene) Goal: To achieve quality health and hygiene among all the students and faculty The Context: This is one of the unique practices implemented in our college campus among the female students and the faculty. The challenge of twenty first century is to care for health and lead a dignified life. Practice: Every student and faculty is instructed to avoid junk food and fast food permanently. Such eatables are not sold in the college canteen or in the college premises. Littering such food wrappers is also prohibited. Evidence of success: There is a drastic progress in the college campus as the students have noticeably avoided the unhealthy food and they have realized the health hazards. The campus is also cleaner compared prior to the implementation Practice 2: Plastic Free Campus/Green Campus Goal: To preserve the lush greenery around the campus and to be free from plastic hazards The Context: Evers since the commencement of this new campus, hedges and bushes covered all around the area. There was a need and call for cleanliness the students' strength of the college was increasing year by year. The classroom waste, office waste, general waste and laboratory waste disposal was a real challenge. Practice: Better initiatives are taken by likeminded faculty and with the association of other forums the lush green of the campus is restored. The waste generated in the campus is being cleared with the help of City Municipal Corporation periodically. The ecofriendly campus is prioritized. Evidence of success: There is a lot improvement in the ambience of the campus. The plants and trees are the attraction of the day. Variety of flora is feeding the needs of Botany students.
