2. ACHIEVING ACADEMIC EXCELLENCE

**1. PHYSICAL AND ACADEMIC INFRASTRUCTURE AUGMENTATION:** One of the suggestions given by the previous NAAC Peer Team was to improve Physical and Academic infrastructure. This matter was discussed in the regular HOD's meetings and CDC meetings. As a part of our efforts to improve academic and physical infrastructures, the Chairman of our College Development Committee took special interest in pooling the financial resources from various government departments/agencies. After the first cycle of NAAC accreditation with Chairman's persistent efforts we could construct five new blocks with 30 regular class rooms, 4 small class rooms, 8 +2 new Science laboratories, 6 staff rooms, One big hall for college library, one college Canteen, one ladies waiting room, 5 store rooms, one room for watchman family, one room each for NSS, NCC, Red cross, Sports and 20 girl's toilet & 19 boy's toilet as detailed below.

**ICT INFRA STRUCTURE:** During the second cycle period, totally 113 (203 - 90) computers, 20 LCD projectors, 01 SMART BOARD, were added. "SAMARTHANAM" an NGO working for the cause of blinds has donated a Scanner for visually impaired students.

**ACADEMIC EXCELLENCE:** Achieving academic excellence will be the ultimate aim of all educational institutions. In this direction our college also developed a mechanism to identify, train and help students having potential to excel in academics. To achieve academic excellence in the college, at the end of each semester, all class mentors were asked to identify slow and fast learners in each subject. In turn each HOD planned for suitable guidance and help for each slow and fast learner. **As a result our students have brought laurels to the college by bagging ranks and gold medals as listed below.**

- Our students have bagged **13 Ranks in the university examinations (PG 10 + UG 3)** from 2016 to 2022.
